

Scientist Review Packet: sigma_abc

2026-07-02

Purpose

This packet summarizes existing machine evidence for human scientists. It does not override validation summaries, completion matrices, freeze preconditions, review debt, or human signoff.

Permanent Caveat

DCProjectionTo1D -> INHERITED_PASS, not direct full tensorial DC-series PASS.

Stage Overview

Stage	Stage type	Verification type	Gate
006 sector architecture	inventory/preparation	inventory_only	PASS
007 pair basis closure	inventory/preparation	inventory_only	PASS
008 xxx regression	projection_regression	projection_regression	PASS

Allowed Claims

- repo-level loop-engine progress review
- sigma_abc raw/provenance/projection/prep audit
- projection-preserving raw tensorial candidate
- sector ledger and xxx collapse evidence

Forbidden Claims

- full tensorial $\sigma_{\mu\alpha\beta}$ correctness

- direct full tensorial DC-series PASS
- 012C promotion unless actually frozen
- Stage 013 unless actually started and approved
- tensorial IBP unless explicitly run and validated
- total-derivative reduction unless explicitly validated

Source Markdown

The complete Markdown packet is generated next to this TeX file.
